MDF Swing Door Wardrobe

Description

A soft and sober style, to create a precious and enveloping atmosphere in the interiors of wardrobes and storage units. Materials that are pleasant to the touch and the eye. Internal fixtures and main structure share the same finish, to create a single elegant overall effect, with the possibility of enriching each element by adding discrete metal profiles in Shadow finish, warm and soft light sources, or precious leather details. The Classic fixtures can be customized to the millimeter.

Walk-in Closet

PR-W01

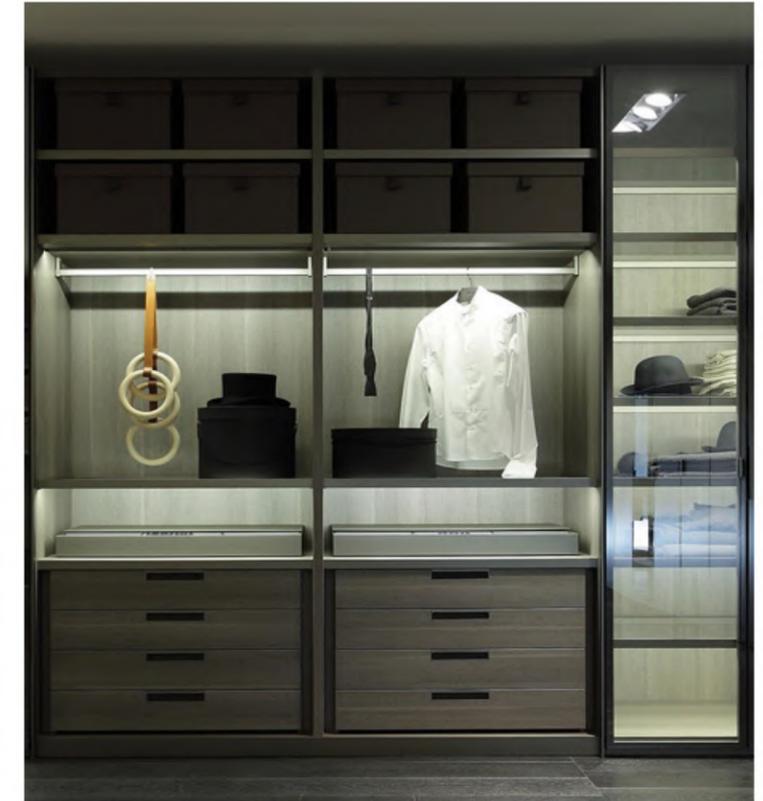

The walk-in wardrobe has a professional design and manufacturing, so the storage space is very large. The large and scientifically classified structural design allows the clothes to be displayed neatly, and the dresses, skirts, coats, bags, and shoes are all arranged neatly.

We can get dressed or changed in the bedroom of our house.
We have a complete design team ready to provide a walk-in wardrobe for whatever type of room.

There is an infinity of storage solutions all made to the measurements required.

Busy, there is such a space can be unbridled reverie, overlooking, reading, that there should be how comfortable! It also has a strong storage space.

Closets in the form of “L” occupy two of the walls of the room leaving you space to move. A “U” occupies three walls for maximum storage. The straight closet design allows for his and hers sides and works well in smaller areas. Depending on closet size, all three shapes benefit from an ottoman or seating area for putting on shoes or dressing.
